

# Meteorological Services

“

Having live access to a meteorologist allowed us to get very detailed, site-specific information about how the impending storms might affect us, while the web visualization tool proved to be extremely reliable and provided real-time data on thunderstorm movement, lightning, wind gusts, and weather watches and warnings. We made the decision, based on the visualization data and consultation from [AEM's] meteorologists, to close the fair on two occasions due to approaching thunderstorms. We made the right call both times and evacuated all guests from the grounds in a timely fashion.

— Andrew Spears,  
Monmouth County Park System

## Weather experts who get it right

Let our weather experts provide you with accurate, pinpoint forecasts customized for your season, game, event, or other weather reporting needs. Our 24/7 team of veteran meteorologists provide customized real-time weather consulting to help your organization make better weather-related operational decisions and assist in protecting lives and property. From aviation and energy utilities to banking and sporting events, we help some of the world's best-known companies be prepared for every weather scenario across the globe.

Custom forecasts

24/7 expert support

Access anywhere

### BENEFITS
